MARCH 2024

WE TRAIN WITH THE BEST

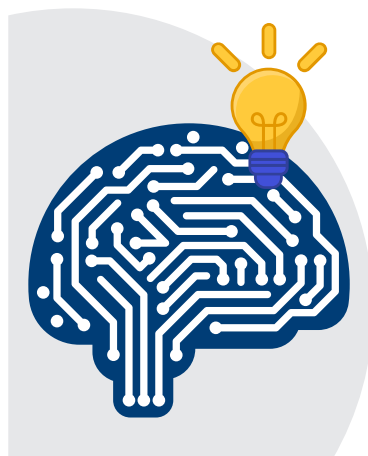

'3M Bonding & Joining Tech Day' under this banner, training workshops were held at the premises of our top supplier of tapes and foils, the 3M Company. This extremely prestigious event furnished us with new knowledge, which, combined with Bimax's extensive experience, will be transformed into effective solutions for our clients. We would like to thank our technologists and specialists, whose role it is to oversee our specialised projects, for their participation in the event to now utilise their newly-acquired knowledge and take us forward.

DO YOU KNOW THAT

...Bimax has its own 'Bikipedia'?

During almost 30 years of prosperity within the market, our company has developed hundreds of solutions and procedures that are the answers to the problems of our clients. The human memory is good, but sadly limited, which is why some considerable time ago we invested in software in order to create an in-depth knowledge base. This dedicated software is only used by a selected number of personnel at our company. It was developed to harbour catalogued solutions, printing combinations and techniques used by us in problematic situations.

INTEGRATION MEETING

Sparks of positive energy and crazy humour were in abundance! When we work, we are committed 100% and when we have fun, we also give our all. That is why the fun was great! The corporate event began with a speech from our President, Mr. Bogdan Piskadło. His voice was full of emotion. As we all come to realise, the last year had been a rollercoaster ride of highs and lows. Following an official toast and a delicious meal, a crazy party began that we will all remember for a long time! Dear customers, this is how the event unfolded...

REMADAYS

Every year, the Bimax delegation visits the industry fair in Nadarzyn. It is the perfect time for meetings with industry friends and exploring new technological opportunities offered by the market.

Bimax team wishes all our clients and business partners Happy Easter!

*May this special time bring prosperity and success
both to business projects and personal relationships as well.*

Thank you for the enthusiastic reception of the new BIMAX ANIMALS series in which our employees define what kind of animal they could be... this issue will be full of surprises...

Boss Bogdan is a fox ???

In European culture, this species does not evoke positive associations. However, in Japan it is considered a symbol of wealth, and in America, many people consider the fox a symbol of wisdom and nobility. 'In The Little Prince' by Antoine De Saint Exupery, it symbolises wisdom and life experience. The fox is an animal endowed with great intelligence and cunning.

Characteristic	Fox	Bogdan
